

AWS Workshop — One-Day Agenda

EC2 · Lambda · IAM · S3 · VPC

09:00 – 17:15 | Beginner – Intermediate
Lectures + Hands-On Labs

MORNING		
09:00 – 09:30	LECTURE Welcome & AWS Foundations AWS Global Infrastructure, Regions, AZs, Well-Architected Framework overview, workshop logistics.	
09:30 – 10:15	LECTURE IAM Deep Dive — Users, Roles & Policies Users, groups, roles, policy JSON structure. Least-privilege principle, MFA, IAM best practices.	IAM
10:15 – 10:30	BREAK Break Networking & refreshments.	
10:30 – 11:30	HANDS-ON Lab 1 — Build a VPC from Scratch Create VPC, public/private subnets, IGW, NAT GW, route tables, security groups. Launch EC2 & test SSH.	VPC EC2
11:30 – 12:15	LECTURE EC2 Masterclass — Instances, Scaling & LB Instance families, AMIs, key pairs, user data. Auto Scaling Groups, ALB/NLB, placement groups.	EC2
LUNCH		
12:15 – 13:15	BREAK Lunch Break Lunch provided. Open Q&A with facilitators.	
AFTERNOON		
13:15 – 14:15	HANDS-ON Lab 2 — Serverless API with Lambda + S3 Create Lambda function (Python), trigger via API Gateway, read/write to S3 bucket. IAM execution role setup.	Lambda S3 IAM
14:15 – 15:00	LECTURE S3 Deep Dive — Storage, Security & Hosting Buckets, objects, storage classes, lifecycle rules, versioning, encryption, bucket policies, static website hosting.	S3
15:00 – 15:15	BREAK Break Stretch & refreshments.	
15:15 – 16:15	HANDS-ON Lab 3 — Secure Multi-Tier Architecture Deploy EC2 in private subnet, S3 for static assets, Lambda for processing, IAM roles across services.	EC2 VPC S3 Lambda IAM
16:15 – 16:45	LECTURE Architecture Patterns & Best Practices Reference architectures, cost optimization, security hardening, monitoring with CloudWatch.	
16:45 – 17:15	HANDS-ON Team Challenge & Wrap-Up Design a secure, scalable architecture using EC2, Lambda, S3, VPC, IAM. Presentations & certificates.	

Prerequisites: Laptop with browser · AWS account (Free Tier) · Basic CLI familiarity

Key Services: IAM VPC EC2 Lambda S3
